FACIAL PEELS

Lactic Peel \$85

Skin Conditions: Dry, hyperpigmented, melasma skin.

The Lactic Lightening Peel contains lactic acid--a milk-based ingredient that is great for hydrating and exfoliating the skin in a gentle manner. The Peel also includes two superb lighteners, arbutin and kojic. This product is great as a booster for enzymes or on its own as a great lightening peel.

Exfoliates, Softens, Hydrates, Lightens

*Best performed in a series of 6 peels spaced 1 week apart

Glycolic Peel \$100

Skin Conditions: Acneic, Congested and Keratinized Skin.

The Glycolic Peel is an excellent cell renewal Peel and is a great classic on its own. It is also an excellent booster to any enzyme. The glycolic acid dissolves the desmosomes that hold skin together to allow for an efficient exfoliation.

Desquamates SkinCells , Exfoliates, Softens, Reduces Keratinization, Treats Mild to Moderate Acne, Minimizes Pore Size

*Best performed in a series of 6 peels spaced 1 week apart.

Cranberry Turnover Peel \$125

Skin Conditions: Acneic and Oily Skin. Inflamed and pustular acne.

The Cranberry Turnover Peel is a powerhouse treatment that exfoliates and reduces oil with a creamy consistency with salicylic acid and cranberry mixture. Prevents pore clogging. It also provides anti-inflammatory-like benefits from pustular acne. This has strong antioxidants and astringents that are used as a natural remedy for psoriasis, eczema, and other skin conditions. It will soothe and calm by relieving itching and irritation.

*** Resurfaces and Refines the Skin and Pores, Excellent Antioxidant, Removes Oil and Debris, Inhibits Inflammation ***

Depigmentation Peel \$150

Skin Conditions: Hyperpigmentation, Melasma, and/or Acne

This is mild but very effective and delivers lighteners down to the melanocytes without traumatizing the skin. This is buffered with azelaic, arbutin, and kojic acids, which control hyperpigmentation, melasma, or sun damage for all Fitzpatricks 1-6. This combination is a beautiful peeling treatment for evening skin tone, reducing acne, and retexturing the skin.

*** Evens skin Tone, Reduces Acne, Exfoliates, Softens ***
